

EWQA

EASTERN WATER QUALITY ASSOCIATION

2024 EWQA Fall Conference & Trade Show

September 11th - 13th

Wind Creek Hotel & Casino

MEMBERSHIP IN EWQA HAS BENEFITS

Join TODAY!

The Eastern Water Quality Association is a non-profit organization that is dedicated to growing the water treatment industry within our territory from South Carolina all the way up to Maine. We were founded back in the 1960's and continue to thrive as our industry becomes more important than ever before.

We offer our members a variety of benefits including the following:

- Continuing Education – Technical and Sales Training
- WQA Approved Training for CPD's
- Discounts on Attendance and Exhibitor Space at Trade Show & Training Events
- Annual Conference & Trade Show
- Spring Training Event
- Free listing on EWQA website
- Members Only Section on website offers valuable information
- Great Networking Opportunities
- Monthly Newsletter
- Volunteer opportunities to serve on the board of directors or a committee
- Legislative Support

The EWQA is a regional association of the WQA (Water Quality Association) and helps to further the education of our industry members and support legislation that is in our best interest and educate legislators to understand our industry so that we may help in the legislative process.

The EWQA puts on events to bring our members to together not only to attend classes and learn the latest, but to network and problem solve. Talking with others who may be experiencing the same problems can uncover multiple solutions and help you avoid common problems. The EWQA provides that perfect opportunity to meet others in your industry who may be able to help you solve problems. For those who are members, thank you. If you're not a member yet, consider joining

EWQA BOARD OF DIRECTORS

Marianne Metzger

Executive Director

Candice Wentling

President

Trent Stumbaugh

Past President

Kevin Osborn

1st Vice President

Scott Trafas

2nd Vice President

Douglas Haring

Internal Vice President

Nicole Parmer

Treasurer

Mark Henderson

Secretary

Josh Wenzel

Board Member

Mike Urbans

Board Member

Jeff Gottlieb

Board Member

Wes Hurd Jr.

Board Member

Tim Van Overloop

Board Member

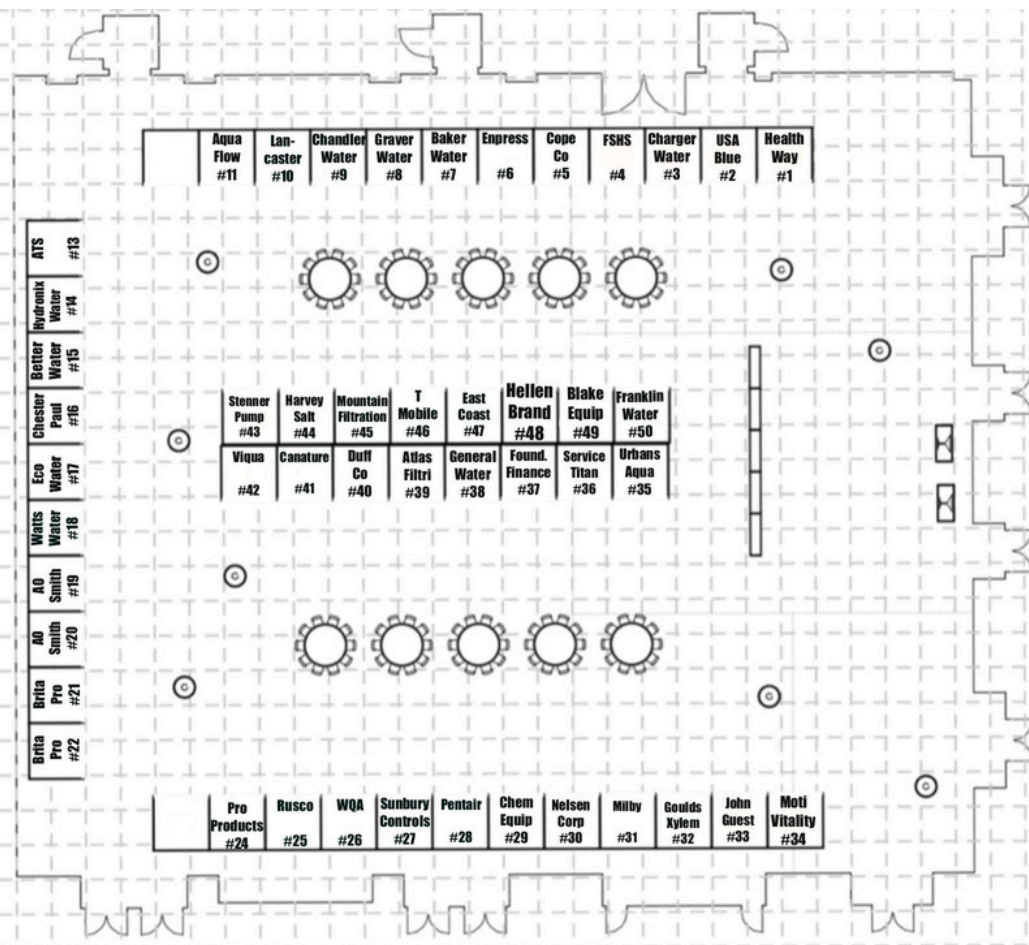

The EWQA Board of Directors are comprised of wonderful volunteers' from within the EWQA Territory. Each board member donates their time and energy to further enhance the EWQA experience for our members and further our industry. If you or someone you know is interested in becoming a board member, let us know. Feel free to speak to any of our directors that are present or send an email to info@ewqa.org.

EWQA Needs YOU The board of directors does a great job at running the association, but we need the help of our members to further our industry and grow our association. There are a few ways to help. First and foremost, speak up, if you have an opinion or suggestion let us know. We are here to serve our members, so knowing what you think is extremely important in planning for the future. Secondly, show up. When we have events show your support by being present and participating in our events. Third, sponsor or donate. The EWQA is looking to make improvements to our association and there is cost associated, so your financial support is much appreciated. Finally, volunteer, you don't have to be on the board of directors to serve on a committee. We have lots of committees to choose from including Membership, Public Relations, Convention, and many more. We want to make this association the best, but we need your help.

If you would like to volunteer contact Marianne at marianne@ewqa.org or call 216-860-0765.

TRAINING SESSIONS

WEDNESDAY SEPTEMBER 11, 2024

Radon, Methane & Other Gases in Water (0.1 CPD)

Tate Burkhardt - Better Water Industries

8:30 a.m. – 9:30 a.m. | Foundry B

This class will address gases found in water that should be treated to improve the safety and aesthetics of drinking water. Specifically, this will address removing radon and methane in water. Gasses in water may present health concerns or make the water unpalatable, so treatment is necessary.

Best Practices for PFAS - Testing and Treatment (0.1 CPD)

Marianne Metzger - Resintech

9:45 a.m. -10:45 a.m. | Foundry B

This class will discuss the proper protocol for collecting a sample and how to avoid cross contamination in your samples. We will go over all the things you will need to avoid the day of sampling. Additionally, it will address the various treatment options along with the recommended pre-treatments that may be necessary to maintain PFAS removal rates.

Planning for Success - Next Level Sales Thinking

Candice Wentling - Certifies Action

11:00 a.m. - 12:00 p.m. | Foundry B

When it comes to sales, the focus is generally all about leads; how many are there and are they “good” or “bad”? This session will empower sales teams to think differently about their leads and better empower them to be productive and successful every week.

“Filtration 201 (0.1 CPD)

Jennifer Smith - Resintech

1:30 p.m. - 2:30 p.m. | Foundry B

Building on your foundational knowledge of filtration, this advanced class delves deeper into the nuances of water filtration systems. We will explore a range of filter types including sediment, micron, carbon, specialty media, and more. Participants will develop a comprehensive understanding of each filtration method, including their specific applications and the advantages they provide for both residential and commercial water treatment.

EBCT - How it Can Impact Sizing & Design of Treatment Systems (0.1 CPD)

Mike Urbans - Urbans Aqua

2:45 p.m. - 3:45 p.m. | Foundry B

This specialized class explores the critical role of Empty Bed Contact Time (EBCT) in the design and optimization of water treatment systems. Participants will gain an in-depth understanding of how EBCT affects the performance of various filtration processes and learn how to apply this knowledge to effectively size and design treatment systems for optimal performance.

TRAINING SESSIONS

THURSDAY SEPTEMBER 12, 2024

Teardown & Servicing 1 1/2" Twin Tank Control (0.1 CPD)

Doug Haring - Clack Corp

8:00 a.m. – 9:00 a.m. | Foundry B

This course provides detailed instruction on the teardown, servicing, and maintenance of 1 1/2" twin tank control systems, commonly used in water treatment applications. Participants will learn the essential skills required to effectively disassemble, inspect, repair, and reassemble these control systems to ensure optimal performance and longevity.

Tearing Down the Silo's - Tapping into Talent

Candice Wentling - Certified Action

8:00 a.m. - 9:00 a.m. | Foundry c

This session will evaluate how most of our operations involve nearly every department. With a strong focus on sales and customer service, this session will review how we can streamline and elevate the talent in our dealerships with no extra cost.

Addressing Problem Water - Troubleshooting & Managing Expectations (0.1 CPD)

Kevin Osborn - A.O. Smith

9:15 a.m. - 10:15 a.m. | Foundry B

This comprehensive course is designed to equip participants with the skills needed to effectively troubleshoot and manage expectations when dealing with challenging water quality issues. From identifying common problems to implementing practical solutions, this class provides a hands-on approach to addressing water quality concerns in both residential and commercial settings.

The Safe Drinking Water Act - 50th Anniversary (0.1 CPD)

Kim Redden - Pentair

9:15 a.m. - 10:15 p.m. | Foundry C

Join us for an in-depth exploration of the Safe Drinking Water Act (SDWA) as we mark its 50th anniversary. This class offers a comprehensive review of the landmark legislation that has shaped water quality standards and public health protections in the United States. Participants will gain insights into the Act's history, impact, and ongoing relevance in ensuring safe drinking water for all.

FRIDAY SEPTEMBER 13, 2024

Valve Round Table - Pentair, Clack, CSI, Canature (0.1 CPD)

9:00 am - 10:00 a.m. | Foundry AFGHI

This class will allow attendees to view and get an overview on the various valves that can be used in water treatment. Representatives from Clack, Pentair, CSI and Canature will each have their own table where attendees can learn the particulars about each valve. Attendees will spend approximately 10 minutes at each table to expose them to all valves.

TRAINING SESSIONS

Applications Using Sequential & Multiplex Systems (0.1 CPD)

Richard Mest - A.O. Smith

10:15 a.m. - 11:15a.m. | Foundry BC

Unlock the potential of complex systems in our advanced course, "Applications Using Sequential and Multiplex Systems." This class is tailored for engineers, systems designers, and technology enthusiasts eager to explore the intricate world of sequential and multiplex systems in practical applications.

The New Lead Rules (0.1 CPD)

Jeremy Pollock - WQA

10:15 a.m. - 11:15 a.m. | Foundry E

This course provides a comprehensive overview of the legislative and regulatory updates as it pertains to the Water Quality Industry. There will be a feature on lead exposure within water and new regulations to address. With a focus on the harmful effects of lead and the policies designed to mitigate these risks, participants will gain a deep understanding of the critical legislation and regulations that shape new rules with regard to lead in drinking water.

Hands-on: RO Installation & Service (0.1 CPD)

Scott Trafas of Aqua Doctor & Billy Van Bramer of Duff Co.

10:15 a.m. - 11:15 a.m. | Foundry D

Master the essential skills for installing and servicing reverse osmosis (RO) systems with our "Hands-On: RO Installation & Service" class. This practical course is designed for technicians, service professionals, and anyone who want to gain in-depth, hands-on experience with RO systems, ensuring efficient and reliable water purification.

Intro to Water Treatment for Irrigation & Sprinklers (0.1 CPD)

Billy Van Bramer | Duff Co.

11:30 a.m. - 12:30 p.m. | Foundry BC

Hiring & Training Installers

Kelly Thompson - Moti-Vitality

11:30 a.m. - 12:30 p.m. | Foundry E

This class is designed for managers, HR professionals, and business owners looking to develop a proficient team of installers who can deliver exceptional service and maintain high standards of quality.

Panel on Diversifying Your Business - Air Purification (0.1 CPD)

Dylen Freeman of Healthways, Trent Stumbaugh of Negleys, & DJ Shanahan of Sharp Water

11:30 a.m. - 12:30 p.m. | Foundry D

This class has three experts on how to diversify your business. Dylan Freeman of Healthways will be discussing how to add air purification to your already established water treatment business. Trent Stumbaugh talks about adding water testing through the use of a partner laboratory to add to the portfolio of services offered. DJ Shannahan discusses getting into the world of commercial and industrial water treatment including the good the bad and the ugly.

EXHIBITORS

A.O Smith Booth #19 & 20

Kevin Osborn

1900 Prospect Court

Appleton, WI 54914

P: (508) 397-1876

E: kevin.osborn@aosmith.com

Manufacture of Water Conditioning Equipment under the brands of Water Right and Master Water Conditioning

Aqua Treatment Service, INC Booth #13

Jason Homan

194 HEMPT RD

MECHANICSBURG, PA 17050

P: (484) 332 - 1667

E: JASON@AQUAT.COM Website: www.aquat.com

Family owned OEM/manufacture in Mechanicsburg, Pa specializing in ultraviolet disinfection systems and custom stainless tanks. We also offer all water treatment products such as water softeners, filters and filtration medias.

Aqua Flow Pump & Supply Booth #11

Charles Kirschner

1561 Pulaski HWY,

Bear, DE 19701

Moti-Vitality Booth #34

Kelly Thompson
11363 E. Lakewood Blvd. Unit A
Holland, MI 49424
P: 810- 655-9600
E: info@moti-vitality.com

Moti-Vitality, LLC was created in 2008 out of a passion for the water treatment industry. In 2023, we launched a state-of-the-art Installer Training Facility which provides real life installation and sales training experience. Installers and Sales and Service Professionals have trained at our facility where they learn proper plumbing assessment, drain connection valve teardown, customer communication, best practices, and more! They will install different scenarios where they can make a mistake in our facility, not in your customer's home. Moti-Vitality also provides hiring, and virtual or on-site training solutions for water treatment professionals and owners. Our MV Marketplace offers industry specific products at near-distributor prices.

Urbans Aqua Booth #35

Michael Urbans

P.O. Box 434

Lima PA 19037-0434

P: 610.365.7818 F: 610.571.0410

Email: Sales@urbansaqua.com Website: www.urbansaqua.com

Rely on Urbans Aqua for innovative solutions to your customer's water treatment problems. Urbans Aqua experts have years of experience using tried and true water treatment products. As members of Water Quality Association (WQA) we offer products which have been tested against ANSI standards and are NSF or WQA Gold Seal certified. We approach new products conservatively and take our time before giving recommendations. Sometimes we are contacted for beta testing of a new product. When our dealers find an appropriate application, we work with the manufacturer, dealer and end user to test, learn and recommend changes if necessary.
